Name _____ Date_____

Is It Recyclable?
Data Sheet

Student Pages

Directions: Begin by listing all items. Classify each item into one or more of the following categories: metal, plastic, glass, paper, food, other. Complete a prediction for each item. Complete the remaining columns after you've finished gathering the needed information.

Question: *What percent of your team's items are recyclable?*

Item	Category	Is it recyclable?		If Yes, where? If No, why not?	Resource used
